

Joint Master Degree in AquaCulture, Environment and Society (ACES)

Students will be taught by a team of international experts, have the chance to study in three fantastic locations throughout Europe and gain the skills required to address an issue of global importance: food security through sustainable aquaculture production.

A fantastic opportunity has arisen for students which will allow them to

1. Study at 3 European Centres of Excellence for Aquaculture studies - Scotland, Greece and France;
2. Work closely with industry and business in the world of Aquaculture; and
3. Gain a Master degree through a highly prestigious European education programme supported by Erasmus Plus (previously Erasmus Mundus)

Moreover, our fees are highly competitive fees - (4,500 Euros (EU) and 9,000 EU (international students)
Up to 25 fully funded scholarships will be available (on a competitive basis) for the next academic year of the ACES programme, 2016-2018

We are now accepting applications for fully funded scholarships for the next academic year of the ACES programme, starting in August 2016. Applications from EU and non-EU candidates are welcome - the programme is aimed at students from all over the world. Scholarships will cover tuition fees, living and travel expenses.
